

"Are you doing a documentary about World War I? Do you need World War I stock footage for your movie? Phil Stewart just completed a book called **BATTLEFILM: U.S. Army Signal Corps Motion Pictures of the Great War.**" This reference book gives concise information about the surviving motion pictures that were taken during WWI, over 90 years ago. **BATTLEFILM** details 467 film titles that cover America's part in this conflict. Each of the 957 reels of action is described using data gathered from actual U.S. Army records. This book is the **ONLY** one in publication today that details readily available WWI films. **BATTLEFILM** is a superb source of information for stock-footage for that Great War documentary."
